

♻️ Recycling Collection Update – Tuesday, January 27 ♻️

Recycling WILL BE collected tomorrow, Tuesday, January 27, as scheduled.

We recognize that, with the amount of snow still on the ground, container placement may be difficult in some areas. We appreciate everyone's patience as our crews work through these conditions.

Once your recycling has been collected, we kindly ask that containers be removed from the roadway as soon as possible, if you are able.

This allows us to continue our efforts to plow, clear, and remove remaining snow from the street.

We also understand that many residents may be at work when collection occurs.

If needed, our crews may move empty containers into driveways or out of the travel lane so snow removal operations can continue safely and efficiently.

🙏 Thank you for your understanding and cooperation as we balance recycling services with ongoing snow removal. Working together helps us get everyone back to normal as quickly as possible.
